Master of Science in Nutrition
Post-Baccalaureate Preparatory Program 2013-2014

The Post-Baccalaureate Preparatory Program ("the post-bacc") allows students missing a significant number of prerequisites to complete coursework in preparation for the MSN program at Bastyr University. Admission into the post-bacc program does not guarantee admissions into the Master's program. See the reverse side of this page for a post-bacc timeline.

POST-BACC PREREQUISITES

The following courses must be completed prior to enrolling in the post-bacc program.

- Bachelor's Degree from a regionally accredited institution
- College Algebra
- Introductory Biology with lab
- General Chemistry 1 & 2, science major level, with labs (Can be taken during the summer at Bastyr University prior to the post-bacc year— the prerequisite is Introduction to Chemistry)

POST-BACC CURRICULUM

While enrolled in the post-bacc program, students can plan to complete the following MSN prerequisites.

- Organic Chemistry
- Biochemistry 1 & 2
- Anatomy & Physiology 1 – 3
- Microbiology
- Abnormal Psychology (MSN CHP applicants)
- Developmental Psychology (MSN CHP or MSN/DPD applicants)
- Nutrition (Online)

OTHER COURSES

Whole Foods Production
Post-bacc students have the option of taking this course at Bastyr (graduate level). It will take the place of Whole Foods Production in the MSN program the following year.
**Post-Baccalaureate Program Timeline**

**Priority Deadline: March 15**

**SUMMER QUARTER**
- General Chem 1 (6 cred)
- General Chem 2 (6 cred)

**FALL QUARTER**
- Begin Post-Bacc Program

**WINTER QUARTER**
- Organic Chem (5 cred)
- Anat & Phys 1 (3 cred)
- Microbiology (3 cred)
  - Developmental Psychology (4 credits—optional)
- Biochemistry 1 (5 cred)
- Nutrition, online (3 cred)
- Anat & Phys 2 (3 cred)

**SPRING QUARTER**
- Biochemistry 2 (5 cred)
- Anat & Phys 3 (4 cred)
  - Abnormal Psychology (4 credits—optional)
  - Whole Foods Production (3 credits—optional)

**FALL QUARTER**
- Begin Masters Nutrition Program.
